Subject: GE foods
Sensitivity: Personal

Dear Mr. L.R. Lake;

I am writing to insure my right to know if the food I buy is genetically engineered or not. I happen to believe in the right to knowledge, I applaud the DSHEA & I think that the consumer is vastly underestimated by your agency & government in general. You can no longer keep this information secret, I would shy away from GE foods as I happen to believe that the original Creator has a lot more knowledge than our scientists. I think you know that GE foods would fail miserably at the marketplace, hence the push to keep it a secret. Please be part of the solution & speak for the millions of consumers who still believe in their right to know, & their right to choose.

Sincerely,

Cynthia Mantel & Serge Bisson
